University Evaluation Reports
For each teaching semester, there is a single University-wide:
• Unit Evaluation Report;
• Lecturer Evaluation Report;
• Tutor Evaluation Report.

Each University report states, for each scale, the mean value, percentage agreement and number of respondents for each University School and Faculty, together with the corresponding value for the University.

The Deputy Vice-Chancellor, Executive Deans of Faculties, Associate Deans (T&L) and Heads of School use this information when monitoring and reviewing the teaching and learning in the University.
